About the website

Almosafer is the Middle East's leading travel brand offering consumers seamless user experiences for domestic and international travel bookings through its omnichannel offerings across state-of-the-art online platforms, call centers, WhatsApp, and retail locations.

Providing hotel booking options for over 1.5 million properties around the globe, flight bookings on over 450 airlines, domestic chalet, and restroom reservations, complete holiday packages, domestic activities, car rental, transfers, concierge planning services, and more. Almosafer boasts various convenient booking solutions for any type of travel need.

Test Cases

We have done six test cases on this website using automation tools such as Selenium and using the TestNG framework.

1. Go to the website and check the default language is en.

2. Go to the website and check the default currency is SAR.

Test Cases

3. Go and select the countries to be randomly from (Riyadh, Dubai, Jeddah), to Amman and select the date to be after 2 days from the time you execute this test, and the return date will be after 4 days from the date of travel.

4. Let the website go randomly either to Arabic or English website, if the website is in English then it will enter from (Riyadh to Dubai), if it is in Arabic it will enter from (Amman to Jeddah).

Test Cases

5. Check the title for Arabic and English websites.

6. Go to the hotel tab and complete one complete process.
